

PROJECT UPDATE

The Louisiana Department of Transportation and Development (LADOTD), in conjunction with the Federal Highway Administration (FHWA), is proposing to widen two sections of US 84 located on the eastern and western ends of Winnfield, LA. The western segment limits are between the intersection of US 84 with La 1228 and US 167. The eastern segment limits are between the intersection of US 84 with US 167 and La 34. This project is part of a program to continue the four- and five-lane development of the El Camino Corridor through Louisiana, beginning at Toledo Bend Reservoir in Sabine Parish and ending in the

Town of Vidalia in Concordia Parish for a total length of 186 miles. These improvements will help redevelop economic growth and maintain continuity along the El Camino Corridor.

In conjunction with LADOTD, the project team began working on developing preliminary alternatives in early 2013. In November 2013, Public Informational Meeting No. 1 was held for the proposed widening of US 84. The purpose of Public Meeting No. 1 was to present information regarding the Environmental Assessment and to provide the public with the opportunity to view and comment on the preliminary alternative layouts.

PUBLIC INFORMATIONAL MEETING NO. 2

A second public informational meeting has been scheduled in order to present the current project alternatives that will be further analyzed in the draft Environmental Assessment document. This meeting is open to the general public and will be held in an open-house format. Representatives from LADOTD, FHWA, and the project team will be present to receive comments and answer questions related to the proposed project. Public Informational Meeting No. 2 is scheduled for the time, date, and location below.

WHEN: TUESDAY, MARCH 25, 2014
TIME: 4:30 pm – 6:30 pm
WHERE: A. LEONARD ALLEN MUNICIPAL BUILDING
100 West Main St.
Winnfield, La
