Re: Storm Water Construction General Permit Coverage Notice  
Louisiana Pollutant Discharge Elimination System (LPDES)

Dear Mr. Umeozulu:

Your Notice of Intent (NOI) received February 5, 2014, for the project named below has been processed and is administratively complete.

Project Name: I-49N, Segment K – Phase 1 (I-220 to MLK Dr.) (S.P. H.003495)  
Location: New I-49N (I-220 to MLK Dr.), Shreveport  
Parish: Caddo

This construction project, if qualified under the conditions of the permit and unless notified otherwise by this office, is authorized to discharge storm water associated with construction activity to McCain Creek under the terms and conditions established under Louisiana's LPDES Construction General Permit. Your project's authorization number is LAR10J992. **This number and the Agency Interest Number listed above should be referenced in all future correspondence with this office.**

A copy of the permit can be accessed and printed from LDEQ's Internet website at <http://www.deq.louisiana.gov/portal/> using the following path: DIVISIONS – Water Permits – LPDES Permits – LPDES General Permits – LAR100000 or by entering the Document ID 6053879 in LDEQ's Electronic Document Management System (EDMS) search window found at <http://edms.deq.louisiana.gov/app/doc/quervdef.aspx>. In the event you are unable to access and/or print a copy of this permit for your records from one of the above listed sources, please contact the Water Permits Division at (225) 219-9371 to request a hard copy be sent by mail. In compliance with LAC 33:IX.2701.H, the permittee may be required to provide their own copy of the permit.

This permit requires certain storm water pollution prevention and control measures, possible monitoring and reporting, and regular inspections. You must prepare and implement a storm water pollution prevention plan (SWPPP) that is tailored to your site. As a construction project authorized to discharge under this general permit, all terms and conditions of the permit must be complied with in order to maintain coverage and to avoid possible penalties.

Coverage under this permit does not relieve the permittee from any regulatory responsibility to apply for and receive other permits or authorizations that may be required as a result of activities ongoing or planned at this site. Any activity resulting in a discharge to waters of the state, such as that from a sanitary sewage treatment plant, must have all necessary permits prior to commencement of the planned discharge.

Your facility will be assessed an Annual Maintenance and Surveillance Fee, to be invoiced separately by the agency. Annual fee amounts are subject to adjustment at a later date by promulgation of changes in the Louisiana Administrative Code. Should you owe any past due fees to the Department, you must pay them as soon as possible, pursuant to LAC 33.IX.1309.I, LAC 33.IX.6509.A.1 and LAC 33.I.1701. Therefore, you are encouraged to verify your facility's fee status by contacting LDEQ's Office of Management and Finance, Financial Services Division at (225) 219-3863. **Any past due fees must be remitted via a check to the Louisiana Department of Environmental Quality within thirty (30) days after the effective date of authorization under the permit.**

If you have any questions, please call Blake Perkins at 225-219-3540 in the Water Quality and General Permits Section.

Sincerely,

Jenniffer Sheppard, Manager  
Water Quality and General Permits
