OPEN HOUSE PUBLIC MEETING

The Louisiana Department of Transportation and Development (LADOTD), along with the Federal Highway Administration (FHWA), is proposing to make improvements to the Interstate 12 (I-12) interchange and connecting roads at Louisiana Highway 3002 (LA 3002; South Range Avenue) in the City of Denham Springs. LADOTD encourages the public to attend. This meeting is scheduled for the time, date, and location below:

**Thursday, May 22, 2014
5:00 p.m. – 7:00 p.m.
Southside Junior High School
26535 LA Highway 16
Denham Springs, Louisiana 70727**

The purpose of the meeting is to present information about the project and give the public an opportunity to provide comments on the design alternatives that will be evaluated as part of the Environmental Assessment (EA) for the project. Comments are requested on the purpose and need for the project and issues that should be considered in the EA. In addition, the meeting is an opportunity for any interested parties to request participation in Section 106 of the National Historic Preservation Act consultation to address cultural and historical resource issues related to the project. The FHWA process for conducting an EA in compliance with the National Environmental Policy Act of 1969 will also be described.

A multimedia presentation will be shown at the meeting to describe the project and range of alternatives that are under study. Informational handouts, maps, and graphic displays will also be available. Representatives from LADOTD, FHWA, and the consultant team will be present to receive comments and discuss points of interest.

Verbal comments will be recorded and written statements will be received at the meeting. Written statements may also be mailed to the address shown to the left. If postmarked by **June 2, 2014**, the comment will become part of the record for this meeting.
