Re: Storm Water Construction General Permit Coverage Notice  
Louisiana Pollutant Discharge Elimination System (LPDES)

Dear Mr. Temple:

Your Notice of Intent (NOI) received June 2, 2008 for the project named below has been processed and is administratively complete.

Project Name: State Project 455-09-0008  
Location: I-49 North (LA 2 to Myra-Myrtis Road)  
Parish: Caddo

This construction project, if qualified under the conditions of the permit and unless notified otherwise by this office, is authorized to discharge storm water associated with construction activity under the terms and conditions established under Louisiana's LPDES Construction General Permit. Your project's authorization number is LAR10F137. **This number and the Agency Interest Number listed above should be referenced in all future correspondence with this office, including Discharge Monitoring Reports (DMRs).**

Attached for your use is a copy of the permit. This permit requires certain storm water pollution prevention and control measures, possible monitoring and reporting, and regular inspections. You must prepare and implement a storm water pollution prevention plan (SWPPP) that is tailored to your site. As a construction project authorized to discharge under this general permit, all terms and conditions of the permit must be complied with in order to maintain coverage and to avoid possible penalties.

Coverage under this permit does not relieve the permittee from any regulatory responsibility to apply for and receive other permits or authorizations that may be required as a result of activities ongoing or planned at this site. Any activity resulting in a discharge to waters of the state, such as that from a sanitary sewage treatment plant, must have all necessary permits prior to commencement of the planned discharge.

Your facility will be assessed an Annual Maintenance and Surveillance Fee in the amount of \$264.00, to be invoiced separately by the agency. This payment is not due until your invoice is received. Annual fee amounts are subject to adjustment at a later date by promulgation of changes in the Louisiana Administrative Code. Should you owe any past due fees to the Department, you must pay them as soon as possible, pursuant to LAC 33.IX.1309.I, LAC 33.IX.6509.A.1 and LAC 33.I.1701. Therefore, you are encouraged to verify your facility's fee status by contacting LDEQ's Office of Management and Finance, Financial Services Division at (225) 219-3863. **Any past due fees must be remitted via a check to the Louisiana Department of Environmental Quality within thirty (30) days after the effective date of authorization under the permit.**

If you have any questions, please call Melissa Conti at 225-219-3077 in the Municipal and General Water Permits Section.

Sincerely,

Tom Killeen, Environmental Scientist Manager  
Municipal and General Water Permits Section
